CIRCULAR

HEALTH ADVISORY FOR PARENTS

No: BOMIS/Pr/24-187
Date: 28th July 2024

Dear Parents,

In accordance with recent government circular and with the aim of ensuring the well-being of our students, we are issuing the following health advisory. Your cooperation is crucial in maintaining a healthy and safe school environment.

If Your Child Exhibits Any of the Following Symptoms:

- **Fever**: Persistent or high fever
- **Loose Motions**: Frequent and watery bowel movements.
- **Symptoms of Gastroenteritis**: Nausea, vomiting, abdominal cramps, or diarrhea.

We Request the Following Actions:

1. **Do Not Send Your Child to School**: If your child is experiencing any of the above symptoms, please keep them at home. This helps prevent the spread of illness and ensures that your child has the necessary rest and care.
2. **Immediate Rest**: Ensure your child rests at home until they are symptom-free and fully recovered.
3. **Medical Consultation**: Seek medical advice from a healthcare professional to determine the appropriate treatment and confirm that your child is fit to return to school.
4. **Notification to School**: Inform the school about your child's illness as soon as possible. This helps us monitor and manage the situation effectively.
5. **Adherence to Recovery**: Follow your doctor's recommendations regarding treatment and recovery. Ensure your child is symptom-free and has been cleared by a healthcare professional before returning to school.
6. **Hygiene Measures**: Emphasize proper handwashing and hygiene practices to prevent the spread of illness. If your child is experiencing gastroenteritis, be particularly vigilant about hygiene.

Health and Safety First

The health and safety of our students is our top priority. By adhering to these guidelines, you are helping to ensure that our school community remains healthy and that we can manage any health issues effectively.
